

food

Your partner in natural antimicrobial solutions, lactates and lactic acid

## NATURAL SOLUTIONS

to create unique tastes, ensure freshness over shelf-life and preserve the high quality of foods all in a 100% natural manner.

Fight food waste the sustainable way.

## Advantages:

- wide range of natural ingredients
- preserve the quality and freshness of your food products with sustainable shelf-life extenders
- designed to maintain taste and high quality throughout the entire shelf-life
- potassium-based products available for low sodium recipes
- both liquid and powder forms for easy application in any type of matrix

- dedicated options for excellent taste experiences in your specific industry, from bakery to plant-based foods
- customised products for all perishable foods: bread, sweet baked goods, prepared meals, dips, sauces, fish, meat and plant-based foods
