AWAKENING THE  
ADVANTAGES OF NATURE

## OUR PHILOSOPHY

At Curaloe, we believe that Nature is our greatest teacher and supplies us with the ability to lead a healthy, happy, and balanced life. That's why we grow the greatest gift that Nature has to offer: Aloe Vera.

We use it to create superior organic skincare products with an extremely high concentration of this powerful plant and make them available for you.

We started the journey by growing our own Aloe Vera, source Organic botanical ingredients, and combine them into harmonious formulas that are powerfully effective in creating healthy, radiant skin.

Our range combines an in-depth understanding of science with the extensive knowledge of the synergy, therapeutic, and restorative properties of aloe vera and other plants. We focus on the benefits of organic ingredients to create a certified organic skin and body line for all individuals.

# HISTORY AND ORIGIN

Conceptualized in South Africa by Aloe Vera specialists after an intense study of the uses of Aloe Vera on the skin and body and the international demand for the use of Organic Aloe Vera, Curaloe Organic was born.

The main ingredient is grown on our own farms in the north of South Africa, in the Limpopo province and from there the extract is obtained in a certain manner to preserve all the benefits and positive attributes that the aloe provides.

Our farms have over 1 million aloe plants that grow in the rich soil. There is an indefinite supply of new aloes with our in-house nursery allowing them to grow in peaceful, clean aire to become fully active and producing plants.

Aloe is synonymous with healing, anti-bacterial and hydrating benefits and known to the local people in Africa as the miracle plant. This sentiment is shared across the world by all health-conscious and holistically minded people.
