

PREMIUM SYRUPS RANGE

(BRSP, CRSP, TSP)

Premium Syrup serves as a direct replacement for regular glucose syrup, resulting in little to no change in terms of product application and performance.

Shafi Premium Syrup Range offers:

- Non-GMO rice and tapioca variants
- Hypoallergenic & Vegan
- No trans-fat
- Improves mouthfeel and overall texture
- Reduced hygroscopicity
- Low Maillard reactivity
- Similar functionality and processability as regular glucose syrups
- Cleaner and shorter labelling, “*rice syrup*”, “*tapioca syrup*” instead of “*glucose syrup*” or “*sugar*”
- Caloric and carbohydrate load equals traditional glucose syrup

The Premium Syrup, offering the same functionality as regular glucose syrups, is used in various industries including:

- Snacks, Cereals & Energy Bars
- Confectionery
- Bakery products
- Beverages, flavored alcoholic beverages & carbonated soft drinks
- Ice cream, cake and frozen desserts
- Pharmaceuticals etc.

WHAT IF SIDE BY SIDE PRODUCT COMPARISONS COULD SWEETEN YOUR PRODUCT'S APPEAL?

At Shafi Gluco Chem, we offer a range of highly nutritive Rice and Tapioca based sweeteners derived from an organic or conventional base. Produced naturally by being extracted from rice or tapioca following an enzymatic process, these syrups promise a **simpler** and **cleaner** label, whilst also enabling numerous functionalities for all food and drink formulations.

Shafi Gluco Chem introduces the new, Shafi Premium Rice & Tapioca Syrup, part of the new Premium Syrup range. The premium syrup produced through a hydrolysis of rice or tapioca, results in a buttery and honey flavored, light-amber syrup, having low viscosity and a **reduction in sugar content by a whopping 40%!!**

See the nutritional comparison of the traditional 60 DE Syrup and the Premium Syrup.
