

Flavours

Keva brings to you an exquisite range of floral flavours to use in selected food and beverage preparations. Like fruits, vegetables, spices, herbs and nuts, flowers are also an essential part of nature's roster of providing taste and nutrition. With the current focus on reducing sugar intake and the constant push from consumers to eat healthier foods, the floral flavour trend is gaining immense popularity.

## from full bloom to unbelievably delicious

The addition of edible flowers in food preparations is not new. Ancient history shows us that flowers have been used for health benefits, balancing tastes, aromas, and even improving aesthetic appeal in different culinary practices. The intrinsic, delicate, and exotic aromas of floral flavours are just perfect for adding a touch of elegance to your food and beverage products.

Floral flavours also pair pretty well with traditional fruit flavours by giving a unique twist to an otherwise typical product. It can add a subtly sweet aroma and freshness and complement the inherent fruity profile.

## no compromise in quality & safety

All our flavours undergo stringent quality control processes and adhere to global standards. Our production facilities adhere to:

- **FSSC 22000**
  - ISO 22000-2018
  - ISO/TS 22002-1:2009
  - Additional FSSC 22000 requirements
- **ISO 9001:2015**
- **FSSAI licensed facility**
- **Halal and Kosher certifiable**
