STRONG NAME FOR A STRONG AND HEALTHY FAMILY.

Dietary Supplements
Premium quality brand you can trust

Strong name for a strong and healthy family.

About us

Elephant company is among the leading companies in the field of dietary/food supplement manufacturing services, sales and marketing of dietary/food supplements under our own brand **Strong Nature®**.

We are also one of the leading suppliers of empty hard gelatin capsules and pharmaceutical packing glass to the Serbian pharmaceutical industry.

In 2002 Elephant company started the production of its own Strong Nature® dietary supplements and at the same time started to perform contract manufacturing services for other companies from Serbia and the region.

In 2022 Elephant company opened NEW production facility.

Elephant company offers full service to its clients – development of the product from the formulation definition to the final product package design.

QUALITY POLICY

Elephant company has systematically upgraded its business by introducing standard ISO 9001:2015 with HACCP and GMP.

Elephant company offers Strong Nature® products and manufacturing services according to Halal standard. Our company cooperates on this field with Islamic Community of Serbia. Strong Nature® portfolio has more than 30 Halal products.

STRONG NATURE® brand was established in 2002 with a goal to create a top quality dietary supplements, recognized by its uniqueness and specific in-house formulations. Today, Strong Nature® is among the leaders on the domestic market in category of dietary supplements. Among the market of Serbia, Strong Nature® products can be found on the various world markets.

Markets around the world

STRONG NATURE® brand was established in 2002 with a goal to create a top quality dietary supplements adapted to the fast living habits and needs of today's people .

Today, STRONG NATURE® is among the leaders on the domestic market in category of dietary supplements. Among the market of Serbia, STRONG NATURE® products can be found on the various world markets.

Strong Nature®

IMMUNO PROTECT / 30 capsules

+ COMPOSITION:

100 mg of coenzyme Q10, 100 mg of Broccoli sprouts dry extract (*Brassica oleracea*) 5:1; 2 mg of astaxanthin; 40 mg of vitamin C (as L-ascorbic acid), 12mg αTE* of vitamin E (as dl-α-tocopheryl acetate); 5 mg of zinc (as zinc-oxide) and 50 µg of selenium (as L-selenomethionine).

αTE* - alpha tocopherol equivalents

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Immuno Protect is a dietary supplement based on Broccoli, astaxanthin, vitamin C, vitamin E, selenium and zinc. Glucosinolates are natural sulfur-containing compounds found in broccoli. Upon cooking/crushing, glucosinolates release isothiocyanates, powerful antioxidants such as sulforaphane. Clinical studies suggest that sulforaphane increases the activity of Phase II enzymes that inactivate harmful chemicals and increase the body's natural defense against harmful free radicals. These enzymes may afford protection against certain carcinogens. Astaxanthin is a member of carotenoids which has ability to neutralize reactive oxygen species. It is far more effective than other carotenoids at "singlet oxygen quenching," which is a particular type of oxidation. Thanks to that, astaxanthin is a strong antioxidant and antiinflammatory agent with immunoprotective effect. Selenium, zinc and vitamin E are essential nutrients for humans. Selenium is involved in the development and maintenance of immunocompetence and as an antioxidant to prevent oxidative stress. Zinc has a wide range of biological roles. It is vital for a variety of host immune defenses. Vitamin E is a fat-soluble vitamin with antioxidant activity which acts synergistically with selenium. Vitamin C is the most important water-soluble biological antioxidant.

+ RECOMMENDED FOR:

Vitamin C, selenium and zinc are necessary for the normal function of the immune system.

Vitamin E, vitamin C, selenium and zinc contribute to protection of cells from oxidative stress.

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule a day.

Efsa approved claim

Strong Nature®

ZN + SE + A + C + D / 30 capsules

+ COMPOSITION:

Vitamin C (as sodium L-ascorbate) – 80 mg; Zinc (as zinc bisglycinate) – 15 mg; Vitamin A (as retinyl acetate) – 800 µg RE; Selenium (as l-selenomethionine) – 100 µg

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Zinc+Selenium+Vitamins A C D is a dietary supplement based on selenium, zinc, vitamins A, C and D, intended to preserve the normal function of the immune system. Precisely defined formulation, quality of ingredients and production technology ensure high quality and efficiency of the product.

Vitamin C is in the form of sodium ascorbate - the usable form of vitamin C. **The vitamins and minerals** included in the product contribute to the normal function of the immune system.

Vitamin C and the minerals zinc and selenium contribute to the protection of cells from oxidative stress • Vitamin A contributes to normal iron metabolism. **Vitamin C** contributes to the reduction of fatigue and exhaustion and increases the absorption of iron. **Zinc** contributes to normal fertility and reproduction and maintenance of normal testosterone levels in the blood. **Selenium** contributes to normal spermatogenesis. **Vitamin D** contributes to the normal absorption / utilization of calcium and phosphorus.

+ RECOMMENDED FOR:

The product is recommended to all adults for the needs of strengthening immunity and improving the general condition of the body.

It is especially recommended for:

- increased fatigue and exhaustion • strenuous psychophysical activities • spermatogenesis problems • reduced fertility and reproductive problems • reduced testosterone levels • anemia and reduced iron concentrations in the blood • oxidative stress

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule daily with a meal.

Strong Nature®

STRONG KIDS IMMUNO BEVERAGE / 20 sachets

+ COMPOSITION:

Dietary fiber from Acacia gum (Acacia Seyal), Fibregum™** 1,20 g, Vitamin C (as l-ascorbic acid) 50,00 mg, Niacin (as nicotinamide) 16,00 mg, Pantothenic acid (as Ca-D-pantothenate) 6,00 mg, Zinc (as zinc-gluconate) 5,00 mg, Vitamin B2 (as riboflavin) 1,4 mg, Vitamin B6 (as pyridoxine hydrochloride) 1,4 mg, Vitamin B1 (as thiamine-mononitrate) 1,1 mg, Folic acid (as pteroylmonoglutamic acid) 200,00 µg

**Fibregum™ is a trademark of Nexira

+ CHARACTERISTICS AND EFFECTS:

• WITHOUT ADDITIONAL COLORS AND AROMA • WITHOUT PRESERVATIVES • WITHOUT SUGARS AND ARTIFICIAL SWEETENERS • NEUTRAL TASTE • 1 SACHET A DAY

Strong Nature® Strong Kids Immuno beverage is a dietary supplement designed to strengthen the immunity of your child. In the first few years of life, most children have problems with frequently recurring infections. The reason for this is an insufficiently powerful immune system that is still under development. The best way to create a strong immune system for your child is a proper diet rich in fruits and vegetables as sources of essential vitamins and minerals. However, there are situations when the body needs an additional amount of vitamins and minerals that is easiest to compensate by using dietary supplements.

Strong Nature® Strong Kids Immuno beverage contains the optimal combination of zinc, vitamin B complex and vitamin C. **Zinc** is one of the most important minerals needed for the functioning and development of the immune system. **Vitamin C and B-vitamins** contribute to the correct growth and psychological and physical development of the organism, primarily in periods of intense growth of children. In the product Strong Nature® Strong Kids Immuno beverage, all 8 B-vitamins are present, so in that way, their best effect is achieved.

References: 1. PDR for nutritional supplements 2. www.efsa.europa.eu

+ RECOMMENDED FOR:

- In periods of recovery after illness
- Before and when children start going to school or kindergarten
- To children who are prone to frequent infections
- In periods when the defense capabilities of an organism need to be strengthened
- For better appetite
- For the proper growth and development of a child

+ INSTRUCTIONS FOR USE:

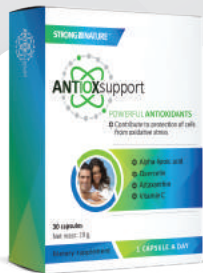

Children older than three years of age: One sachet a day. Sachet content dissolve in a glass of water or juice and drink.

VIRU HELP / 15+15+15 capsules

+ COMPOSITION:

Blister 1: L-lysine 500 mg / **Blister 2:** Astragalus (*Astragalus membranaceus*) root dry extract with min 20% polysaccharides, 5:1 150 mg, Garlic (*Allium sativum*) dry extract with min. 1% allicin 50 mg, Curcuma (*Curcuma longa*) rhizome dry extract with min 95% curcuminoids, 20:1 25 mg / **Blister 3:** niacin 48 mg, pantothenic acid 30 mg, vitamin B1 10 mg, vitamin B2 10 mg, vitamin B6 10 mg, vitamin B12 1000 µg, folic acid 500 µg, biotin 500 µg.

+ CHARACTERISTICS AND EFFECTS:

Herpes is a long-term condition. It is an infection caused by herpes simplex virus (HSV). Taking care about the whole health is the most important thing for fighting herpes.

Lysine is probably the most well-known supplement for managing herpes. It can inhibit the replication of the virus. Medical research shows that getting more lysine than arginine in your diet reduces outbreaks. Researchers believe this balance will even prevent outbreaks in times of stress. Antiviral herbs: Astragalus, Curcuma and Garlic have been used as traditional, highly effective medicines for centuries. Allicin from Garlic might help destroy herpes virus cells, which might control outbreaks of cold sores. The main use of Astragalus is to boost the body's immune system. It's also one of the adaptogen herbs that lowers cortisol, hormone released as a body reaction to stress. The active compound of curcuma, curcumin, is an anti-inflammatory substance that makes body cells less susceptible to viral infections. Stress is a huge trigger to bringing on herpes outbreaks. B vitamins help body to deal with stress and can prevent herpes outbreaks. B-vitamins are necessary for the overall health of the organism.

+ RECOMMENDED FOR:

Strong Nature® ViruHelp is a dietary supplement that contributes to the prevention and reduction, as well as to the decreasing the duration and severity of herpes outbreaks.

- **B-vitamins contribute to the reduction of tiredness and fatigue.**

+ INSTRUCTIONS FOR USE:

Adults: one capsule from each blister per day.

Strong Nature®

VITAMIN D3 2000 IU / 4000 IU / 30 capsules

+ COMPOSITION:

Vitamin D3 2000 IU - Vitamin D3 (cholecalciferol) 50 mcg (2.000 IU)

Vitamin D3 4000 IU - Vitamin D3 (cholecalciferol) 100 mcg (4.000 IU)

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Vitamin D3 2000 IU / Strong Nature® Vitamin D3 4000 IU is food for special medical purposes based on vitamin D in extra virgin olive oil.

Vitamin D is essential for our body. It participates in many biochemical processes, and the basic physiological function of this vitamin is considered to be participation in the metabolism of calcium and phosphorus. Vitamin D is necessary for resorption of calcium and phosphorus from the digestive tract. It is responsible for minor losses of Ca and P in the kidneys and is necessary in the process of their incorporation into the bone material. It is essential for the growth and calcification of bones and teeth. Due to the fact that it participates in the metabolism of calcium, which is necessary for the normal functioning of almost all cells in our body, vitamin D is of crucial importance for all vital functions. If the body lacks vitamin D, resorption of calcium from food is impossible, and the body begins to use calcium from the bones for its needs. The result is rickets in children, and osteomalacia (softening of bones) and osteoporosis (loss of bone mass) in adults. The lack of vitamin D will affect the weakening of the immune function, the health and quality of bones, teeth and muscles, as well as the state of the organism as a whole.

+ RECOMMENDED FOR:

Strong Nature® Vitamin D3 4000 IU is recommended in all conditions that require vitamin D supplementation. Especially recommended:

- in case of decreased immunity
- for healthy and strong bones
- for the health of teeth and gums
- for normal muscle function
- for the prevention and treatment of osteoporosis and osteomalacia
- in the treatment of diseases of the bone and joint system

Strong Nature® FIBRELACT / 10 sachet

+ COMPOSITION:

10 g of lactulose, 2 g of dietary fiber from Acacia gum, Fibregum™*

* Fibregum™ is a registered trademark of Nexira

+ CHARACTERISTICS AND EFFECTS:

A healthy digestive tract is characterized by the ability to process nutrients through the digestive tract in an efficient manner, in order to correctly nourish the entire organism. Digestive discomfort can be highly debilitating with a strong impact on overall well-being and quality of life. Lactulose is a semisynthetic disaccharide comprised of the sugars D-lactose and D-fructose. It is used in the treatment of constipation since it is subjected to the process of fermentation in the colon by certain bacteria. The result of this fermentation is increase of the biomass of these bacteria in the colon and synthesis of mainly organic acids, such as lactic acid and small-chain fatty acids, which, by exerting a local osmotic effect in the colon, result in increased fecal bulk and stimulation of peristalsis. Fibregum™ is an all natural source of soluble dietary fiber, obtained from carefully selected acacia gum sap exuded from the stems and branches of acacia trees.

Strong Nature® FibreLact is a dietary supplement based on lactulose and Fibregum™ intended for the treatment of constipation. Lactulose contributes to an acceleration of intestinal transit. Fibregum™ is soluble dietary fiber that:

- increase stool production and prevent constipation
- shows proven bifidogenic effect
- stimulates the production of beneficial Short Chain Fatty Acids
- have positive effect on gut health

References: 1. PDR for Herbal Medicines 2. PDR for Nutritional Supplements 3. www.pepzingi.com

+ RECOMMENDED FOR:

Dietary supplement based on lactulose and dietary fibers that contributes to the proper functioning of digestive system.

- Lactulose contributes to an acceleration of intestinal transit.
- The beneficial effect is obtained with a single serving of 10g (1 sachet) of lactulose per day.

+ INSTRUCTIONS FOR USE:

Adults and children older than 3 years of age: Sachet content dissolve in a glass of water and drink once a day. The usual time required for the product to show the effects is 2-3 days. During the application, it is necessary to consume the appropriate amount of water (1.5-2 liters per day).

Strong Nature® HELICO PROTECT / 30 capsules

+ COMPOSITION:

Broccoli sprouts dry extract (*Brassica oleracea*) 5:1 - 100 mg, Green tea (*Camellia sinensis* L.) leaf dry extract with min. 95% polyphenols 75 mg, Garlic (*Allium sativum*) dry extract with min. 1% allicin 50 mg, Vitamin U (Methyl Methionine Sulfonium Chloride) 50 mg, Zinc-L-Carnosine, PepZinGITM 34 mg.

+ CHARACTERISTICS AND EFFECTS:

Helicobacter pylori infection and indigestion are extremely common among people. Indigestion is often a sign of an underlying problem, such as: gastroesophageal reflux disease (GERD) or ulcers. Zinc-carnosine, PepZinGITM is a specific chelate of zinc that has been the subject of over 100 scientific studies, including at least 38 clinical trials, for its role in supporting stomach health. Research suggests it helps modulate the growth of *Helicobacter pylori* and promote healing of the stomach lining. It also has been clinically demonstrated to relieve symptoms of indigestion, such as: heartburn, nausea, upset stomach, belching, bloating, inappetence and diarrhea. Vitamin U is an important natural factor in raw cabbage juice that supports gastric health. Vitamin U protects the gastrointestinal lining and aids in its recovery during inflammation. It has antihistamine and antiallergenic properties. Among its most beneficial functions are its neutralization of histamine, which is linked to ulcers. Vitamin U can normalize acid levels in the stomach, and in that way, contributes to proper digestion. Sulforaphane from broccoli sprouts is highly effective against resident *Helicobacter pylori*, including antibiotic-resistant strains. Sulforaphane has also been shown to inhibit urease activity provoked by gastric *H. pylori* infections, which otherwise would generate ammonia, impede gastric acidity and promote inflammation. Green tea is an excellent source of catechins that have antibacterial, antioxidant, antiviral, antiplaque-forming and anti-cancer. Among many other health benefits, Garlic is a strong antibacterial and anti-inflammatory agent.

+ RECOMMENDED FOR:

STRONG NATURE® HELICOBACTER+ is a dietary supplement intended for the maintenance of digestive tract health and as an aid in the treatment of *H. pylori* infection. STRONG NATURE® HELICOBACTER+ is recommended:

- For the prevention of *Helicobacter pylori* infection
- As an aid to the antibiotic therapy of *H. pylori* infection
- For relieving symptoms of digestive discomfort such as: heartburn, belching, nausea, bloating, diarrhea
- To people with gastritis and gastro-esophageal reflux
- To people with gastrointestinal ulcer

**ACTIVATED
CHARCOAL
CAPSULES**
/ 10 capsules
/ 30 capsules

+ COMPOSITION:

250 mg of activated charcoal obtained from carbonized coconut shell.

+ CHARACTERISTICS AND EFFECTS:

Activated (medicinal) charcoal is a capable of absorbing a great number of substances of organ and unorgan origin, as well as gasses. The adsorption of a large number of food ingredients, as well as contaminants in nutrition and drinking water, the active components of many medicaments, the products of bacterial metabolism, etc. is enabled by a large specific surface area of the activated charcoal particles. Activated charcoal isn't absorbed from the gastrointestinal tract and is not subjected to metabolic degradation. As an integral part of the household pharmacies it is desirable to have with you on a trip, vacation and excursions. The beneficial effect shows with nonspecific diarrhea and excessive flatulence after eating.

CARDIO PROTECT / 30 soft gelatin capsules + 30 hard gelatin capsules

+ COMPOSITION:

Blister 1 – hard gelatin capsule: Red rice (*Oriza sativa*) dry extract, with 4% Monacolin-K 250 mg Milk thistle (*Silybum marianum*) seed dry extract with 80% of silymarin 100 mg, Japanese pagoda tree (*Sophora japonica* L) flower dry extract with min 98% of quercetin 100 mg, Vitamin E (as d-alpha tocopheryl acetate) 29.80 mg (thereof Vitamin E 10 mg aTE).

Blister 2 – soft gelatin capsule: Fish oil 500.00 mg, From which: • EPA 175.00 mg • DHA 125.00 mg

+ CHARACTERISTICS AND EFFECTS:

STRONG NATURE® CARDIO PROTECT FORMULA is a dietary supplement based on fish oil, monacolin-K from red rice, quercetin, silymarin and Vitamin E. **Characteristics and effects:** Fish oil is a rich source of polyunsaturated Omega-3 fatty acids EPA and DHA. These polyunsaturated fats play a very important role with the function of our bodies. EPA and DHA lower elevated triglyceride levels, have anti-arrhythmic, anti-inflammatory and immune-modulating properties and are beneficial for the musculoskeletal, gastrointestinal and immune systems. DHA is vital for normal brain development and play a major role in the maintenance of normal cognition and mood. EPA and DHA are converted into hormone-like substances called prostaglandins, and they regulate cell activity and healthy cardiovascular function. Red rice is traditionally used in Chinese cuisine, as well as in Chinese medicine. Its ingredient, monacolin-K, contributes to maintenance of normal blood cholesterol level, by inhibiting the enzyme HMG-CoA reductase, a key enzyme in the synthesis of cholesterol. Silymarin, the active ingredient of Milk thistle, has a known beneficial effect on liver condition, the main organ in the metabolism of cholesterol. It stimulates the production of glutathione, perhaps the most important antioxidant in our body. One of the many roles that glutathione has in the body is its participation in the regeneration of liver cells. Quercetin belongs to a group of polyphenolic substances known as flavonoids. It has antioxidant and anti-inflammatory effect. The positive effect particularly shows on the blood vessels' level, protecting them from the harmful effects of free radicals and increasing Vitamin E is a fat-soluble vitamin that contributes to protection of cells from oxidative stress.

+ RECOMMENDED FOR:

- Monacolin-K contributes to maintenance of normal blood cholesterol level.
- Vitamin E contributes to the protection of cells from oxidative stress.
- Omega 3 fatty acids from fish oil, DHA and EPA, support a healthy heart.

+ INSTRUCTIONS FOR USE:

Adults: 1 soft gelatin capsule a day drink at the same time with a meal, 1 hard capsule in the evening, after a meal.

Strong Nature® MEGA OMEGA OMEGA 3.6.7.9

/ 30 capsules

+ COMPOSITION:

800 mg of Linseed oil, 90 mg of Evening primrose oil, 60 mg of Virgin olive oil, 30 mg of White germ seed oil, 10 mg of Macadamia fruit oil.

+ CHARACTERISTICS AND EFFECTS:

STRONG NATURE® Mega Omega represents a combination of essential (omega 3, 6) and nonessential (omega 7, 9) fatty acids in optimal ratio from linseed oil, evening primrose seed oil, extra virgin olive oil, wheat germ oil and macadamia nut oil. Human body cannot synthesize essential fatty acids and they must be taken with food or in the form of dietary supplements. In STRONG NATURE® Mega Omega, the source of fatty acids is of vegetable origin, so it can be used by people who are allergic to fish and fish products. Omega fatty acids have a positive effect on the level of triglycerides, total and LDL-cholesterol, lipoprotein metabolism, blood pressure and arrhythmia. They also may have immunomodulatory activity. Evening primrose oil is a rich natural source of gamma-linolenic acid, which shows anti-inflammatory and antithrombotic activity.

Strong Nature® CHROMIUM + SELENIUM MAX / 60 capsules

+ COMPOSITION:

Chromium (as chromium picolinate) - 200 µg
Selenium (as L-selenomethionine) - 100 µg

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Chromium + Selenium MAX is a dietary supplement with a precisely defined formulation, in order to maximize the utilization of chromium and selenium, without harmful consequences for the body. The use of the preparation contributes to: • increasing the effectiveness of insulin in diabetes and insulin resistance • regulation of normal blood sugar levels • strengthening the immune system • protect the organism from oxidative stress • normal functioning of the thyroid gland • increasing fertility in both sexes • reducing the risk of the occurrence and development of polycystic ovaries • reduction and elimination of symptoms of PCOS (polycystic ovary syndrome).

Purpose: Strong Nature® Chromium + Selenium MAX is produced according to the highest quality standards. It contains beneficial forms of chromium and selenium, which play important roles in maintaining health and vitality.

Chromium contributes to: • maintaining a normal level of glucose in the blood • normal metabolism of macronutrients (carbohydrates, fats and proteins)

Selenium contributes to: • protect cells from oxidative stress • normal function of the immune system • normal function of the thyroid gland • maintaining normal hair and nails • normal spermatogenesis

+ RECOMMENDED FOR:

Strong Nature® Chromium + Selenium MAX is recommended for adults to:

- strengthen the body's defenses
- protect cells from oxidative damage
- improve reproductive health
- increase physical performance
- reduce the risk of obesity
- insulin resistance and diabetes
- polycystic ovary syndrome

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule daily after a meal.

Strong Nature® HERBAL HELP + ANTIOX SUPPORT / 30+30 capsules

⊕ COMPOSITION:

100 mg of Gymnema (Gymnema sylvestre) leaf dry extract with min 25% gymnemic acid; 50 mg of Bitter melon fruit dry extract (Momordica charantia L.) with min 1,8% charantine, 20:1; 24 mg of Niacin (as nicotinamide); 13,5 mg of Vitamin B5 (as Ca-pantothenate); 5,4 mg of riboflavin; 5,4 mg of Vitamin B6 (as pyridoxine hydrochloride); 5 mg of zinc (as zinc-oxide); 4,5 mg of Thiamine (as thiamine hydrochloride); 300 µg of Folic acid; 135 µg of Biotin (as d-biotin), 100 µg of Chromium (as chromium-chloride); 8,10 µg of Vitamin B12 (as cyanocobalamin); + 90 mg of alpha-lipoic acid; 25 mg of Japanese pagoda tree (Sophora japonica L) flower dry extract with min 98% of quercetin, 15:1; 20 mg of vitamin C (as l-ascorbic acid) and 1 mg of astaxanthin.

⊕ CHARACTERISTICS AND EFFECTS:

STRONG NATURE® HERBAL HELP + ANTIOX SUPPORT is a dietary supplement intended for the maintenance of normal blood glucose level. It represents a combination of plant extracts, vitamins, minerals and antioxidants that contribute to the lowering of blood glucose levels and reduction of secondary complications of diabetes. The leaves of the Gymnema sylvestre plant contain gymnemic acids, which have been shown to slow the transport of glucose from the intestines to the bloodstream. Some research also suggests that gymnema sylvestre extract can help repair and regenerate the beta cells in the pancreas that produce insulin. Bitter melon fruit contains at least three active substances with anti-diabetic properties, including charantine, which has been confirmed to have a blood glucose-lowering effect. Chromium is an essential mineral for human nutrition and aids in the normal function of insulin. It contributes to the maintenance of normal blood glucose levels. Zinc plays a vital role in an enormous number of biological processes. It is a cofactor for the antioxidant enzyme superoxide dismutase (SOD) and is in a number of enzymatic reactions involved in carbohydrate and protein metabolism. Water-soluble B vitamins help convert our food into fuel, allowing us to stay energized throughout the day. B-complex vitamins, particularly B6 and B12, are vital for the health of people who have diabetes. That's because these vitamins support nerve health, which is critical when addressing conditions such as diabetic neuropathy. Biotin is another B-complex vitamin that is necessary for cell growth and for the metabolism of protein, fats and carbohydrates. This vitamin has also been shown to lower fasting blood sugar levels and reduce risk of complications such as diabetic neuropathy. Alpha-lipoic acid, quercetin, astaxanthin and vitamin C represent a combination of very strong antioxidants. Alpha-lipoic acid crosses blood-brain barrier and its antioxidant activity shows on the brain level, too. It is especially recommended to help relieve the symptoms caused by diabetic neuropathy, retinopathy and cardiopathy such as: pain, weakness, rigidity, cramps, numbness, tingling and loss of sensation in nerves. It is believed that quercetin is most active of all flavonoids. Quercetin shows antioxidant and antiinflammatory activity. Astaxanthin is a member of carotenoids which has ability to neutralize reactive oxygen species. Because of that, astaxanthin is a strong antioxidant and antiinflammatory agent with cardioprotective, neuroprotective, antidiabetic, anticancer, antiasthmatic, oculoprotective, nephroprotective, gastroprotective and immunoprotective effects. Vitamin C is the most important water-soluble biological antioxidant. It can scavenge both reactive oxygen species and reactive nitrogen species..

⊕ RECOMMENDED FOR:

STRONG NATURE® HERBAL HELP + ANTIOX SUPPORT is a dietary supplement based on: gymnema leaf dry extract, bitter melon fruit dry extract, B complex vitamins, microelements chromium and zinc, alpha-lipoic acid, quercetin, astaxanthin and vitamin C.

- Chromium is important for blood glucose level, glucose tolerance and for insulin function.
- Zinc contributes to normal metabolism of carbohydrates and fatty acids.
- B vitamins are essential for the production of energy in the body and for the normal functioning of the nervous system. Vitamin B6 contributes to normal protein and glycogen metabolism.
- Alpha lipoic acid, quercetin, astaxanthin, vitamin C, vitamin B2 and zinc represent powerful antioxidants which contribute to protection of cells from oxidative stress.

⊕ INSTRUCTIONS FOR USE:

Adults: 1 capsule from each blister drink once a day before the main meal.

Diabetes segment

Diabetes prevention.

Strong Nature® GLUCO REGUL FORMULA

/ 30 capsules

+ COMPOSITION:

50 mg of Bitter melon fruit dry extract (*Momordica charantia* L.) with min 1,8% charantine, 200 mg of Alpha-lipoic acid, 100 mg of Shiitake mushroom dry extract (*Lentinula edodes*) with min. 10 % polysaccharides, 10:1, 5 mg of Zinc (as zinc-oxide), 1.6 mg of Vitamin B6 (as pyridoxine-hydrochloride), 1.1 mg of Thiamine (as thiamine-mono-nitrate), 40 µg of Chromium (as chromium-III-chloride).

+ CHARACTERISTICS AND EFFECTS:

Double action formula for lowering blood glucose level and reducing secondary complications of Diabetes.

Strong Nature® ALPHA LIPOIC ACID

/ 30 capsules
/ 100 capsules

+ COMPOSITION:

200 mg of alpha-lipoic acid.

+ CHARACTERISTICS AND EFFECTS:

Especially recommended for diabetic neuropathy, retinopathy and cardiopathy: reduces pain, weakness, cramps, numbness, rigidity, tingling and loss of sensation in nerves due to damage caused by Diabetes.

Natural solution for reduction of body weight.

Strong Nature® GREEN COFFEE DRINK / CAPSULES / 14 sachets / 20 capsules

+ COMPOSITION:

Green coffee capsules: 400 mg of decaffeinated Green coffee seed dry extract (*Coffea canephora robusta* P.) standardized to 45-50% of chlorogenic acids, SVETOL®.

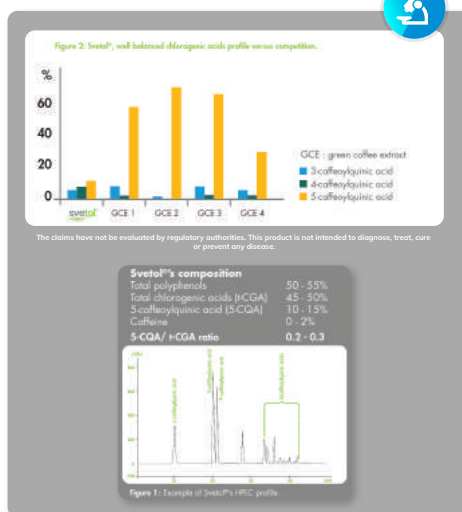

Green coffee drink: 400 mg of Green coffee seed dry extract (*Coffea canephora robusta* P.) with min 45-50% of chlorogenic acids, SVETOL®. Other ingredients: soy milk powder, instant coffee powder. Svetol® is the brand name of company Naturex SA, France

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Green Coffee represents a dietary supplement for weight loss with a pleasant taste of coffee. **Svetol®** is registered trademark of the French company Naturex. It is a natural plant extract of decaffeinated green coffee, obtained from roasted coffee beans of the Robusta variety (*Coffea canephora robusta* Pierre), that is standardized to 45-50 % of chlorogenic acids. Chlorogenic acids reduce intestinal absorption of glucose and thus stimulate the use of existing fat deposits as a source of energy. **A 400 mg daily supplementation with Svetol® has been clinically proven to:**

- Have slimming effects versus placebo
- Provide beautifying effects by increasing lean mass to fat mass ratio (LM/FM)
- Be bioavailable in humans. Reduction of body fat decreases risk factors for many diseases, including diabetes type II.

+ *SCIENTIFIC EVIDENCE:

+ RECOMMENDED FOR:

Strong Nature® Green Coffee is intended as a dietary supplement for people with increased body mass under the regime of weight loss.

+ INSTRUCTIONS FOR USE:

Green coffee capsules: Adults: One capsule a day, 20 minutes before the main meal with plenty of liquid.

Green coffee drink: Adults: One sachet a day. Sachet content dissolved in 100 ml of hot water and drink 20 minutes before the breakfast.

Weight management segment

Natural solution for reduction of body weight.

Strong Nature® GREEN COFFEE DRINK / CAPSULES

/ 14 sachets / 20 capsules

+ COMPOSITION:

Green coffee capsules: 66,7 mg of Green coffee seed dry extract (*Coffea canephora robusta* P.) with min 45-50% of chlorogenic acids, SVETOL®; 526 mg of *Amorphophallus konjac* root dry extract with min 95% glucomannan.

Green coffee drink: 133,3 mg of Green coffee seed dry extract (*Coffea canephora robusta* P.) with min 45-50% of chlorogenic acids, SVETOL®; 1,05 g of *Amorphophallus konjac* root dry extract with min 95% glucomannan. Other ingredients: soy milk powder, instant coffee powder. Svetol® is the brand name of company Naturex SA, France

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Green Coffee Plus represents a combination of two high quality active ingredients glucomannan and Svetol®, which by acting in two different ways are leading to reduction of body weight. The other two ingredients of the product are soy milk powder and instant coffee powder. Thanks to them GREEN COFFEE PLUS has a pleasant taste of coffee. **Glucomannan** is a water-soluble fiber derived from the root of Konjac plant (*Amorphophallus konjac*). This polysaccharide swells in the presence of water, increasing its volume up to 200 times compared to the initial. In this way, after consuming, glucomannan creates a feeling of satiety and prolongs the time until the next meal. Glucomannan also contributes to reduction of total and LDL cholesterol. The mechanism of action is based on the reduction of intestinal cholesterol absorption. Also, glucomannan stimulates the conversion of cholesterol to bile acids, which are further excreted from the body. Glucomannan has a positive impact on digestion and detoxification of the body, too. **A 3 g daily supplementation with glucomannan divided in 3 doses of 1 g each, has been clinically proven to:**

- **Contribute to significant mean weight loss**
- **Serum cholesterol and low-density lipoprotein cholesterol were significantly reduced**
- **No adverse reactions to glucomannan were reported.**

Svetol® is registered trademark of the French company Naturex. It is a natural plant extract of decaffeinated green coffee, obtained from unroasted coffee beans of the Robusta variety (*Coffea canephora robusta* Pierre), that is standardized to 45-50 % of chlorogenic acids. Chlorogenic acids reduce intestinal absorption of glucose and thus stimulate the use of existing fat deposits as a source of energy. A 400 mg daily supplementation with Svetol® has been clinically proven to:

- **Have slimming effects versus placebo**
- **Provide beautifying effects by increasing lean mass to fat mass ratio (LM/FM)**
- **Be bioavailable in humans.**

+ INSTRUCTIONS FOR USE:

Green coffee capsules: Adults: 2 capsules 3 times a day, 30-60 before meal with 1-2 glasses of water. **Green coffee drink:** Adults: 1 sachet 3 times a day. Sachet content dissolved in 100 ml of hot water and drink 30-60 minutes before the meal with 1-2 glasses of water.

+ COMPOSITION:

5-HTP – Dry extract of griffonia seeds (*Griffonia simplicifolia*), with min 98% 5-hydroxytryptophan – 50 mg; Dry leaf extract of green tea (*Camellia sinensis*), with min 40% l-theanine – 100 mg; Dry rhodiola root extract (*Rhodiola rosea*), with min. 3% rosavin and 1% salidroside – 90 mg, dry extract of the fruit of the Chinese schisandra (*Schisandra chinensis*), with min. 10% schisandrin – 65 mg.

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Antistress Day formula, dietary supplement, is a unique product with a herbal composition that increases the body's resistance to stress and physical exertion and contributes to the improvement of mental and physical abilities:

- reduces tension, nervousness and anxiety • improves concentration and memory
- elimination of the negative consequences that stress leaves on our body
- raises the energy level • reduces the feeling of fatigue and exhaustion
- increases the production of serotonin - the hormone of happiness
- reduces anxiety and bad moods.

Strong Nature® Antistress Day formula is a high-quality product, which, thanks to its natural ingredients, encourages the body to react adequately in stressful situations and removes the harmful effects of stress that we are exposed to every day, without creating a feeling of addiction.

+ RECOMMENDED FOR:

STRONG NATURE® ANTISTRESS DAY FORMULA is a dietary supplement based on herbal extracts mixture.

- To eliminate the consequences of stress and anxiety
- For a rapid increase in serotonin - the hormone of happiness
- For problems with concentration and memory

Strong Nature®

ANTISTRESS NIGHT FORMULA / 30 capsules

+ COMPOSITION:

5-HTP – Dry extract of griffonia seeds (*Griffonia simplicifolia*), with min 98% 5-hydroxytryptophan - 50 mg; Melatonin -1 mg; Dry extract of valerian root (*Valeriana officinalis*) with min 0.8% valeric acid - 150 mg; GABA - Gamma-aminobutyric acid - 250 mg.

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Antistress Night formula is a dietary supplement based on high quality herbs, intended to eliminate the consequences of stress that we are exposed to during the day, faster falling asleep, better and better quality sleep.

- Shortens the time required to fall asleep
- Quickly raises the level of serotonin - the hormone of happiness and relaxation
- Reduces irritability and nervous tension
- Improves brain activity
- Promotes muscle and nerve relaxation
- reduces the feeling of discomfort and nervousness.

Strong Nature® Antistress Night is formulated with the aim of making it easier and faster for people who have sleep problems to fall asleep and improve the quality of sleep as a whole. Thanks to the synergistic action of its ingredients, it has a stimulating effect on sleep.

It is intended for: • Shortening the time to fall asleep • For a rapid increase in serotonin - the hormone of happiness • Relaxation in states of irritability and nervous tension • Improving brain activity. 5-HTP (5-hydroxytryptophan) participates in the creation of the neurotransmitters serotonin ("hormone of happiness") and melatonin.

Melatonin contributes to: • Reducing the time it takes to fall asleep. A beneficial effect is achieved by taking 1 mg of melatonin (1 capsule) immediately before going to bed. • Alleviating subjective feelings associated with changing time zones when traveling by plane. **Valerian root contributes to:** • Relaxation in states of irritability and nervous tension • Easier establishment of sleep • Mental and physical well-being.

+ RECOMMENDED FOR:

STRONG NATURE® ANTISTRESS NIGHT FORMULA is recommended for people over 18 years old:

- with sleep disorders (difficulty falling asleep, interrupted and worse sleep)
- when feeling weak and tired
- with irritability and nervous tension
- in exhausting and stressful situations
- for calming and relaxation needs

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule 30-60 minutes before going to sleep.

Strong Nature® TIROID FORMULA / 30 capsules

+ COMPOSITION:

200 mg of L-tyrosine, 10 mg αTE of Vitamin E (as dl-alpha-tocopheryl acetate), 100 µg of Selenium (as sodium -selenate), 100 µg of Iodine (as potassium-iodate).
αTE* - alpha tocopherol equivalents

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® Thyroid Formula represents a combination of four high quality ingredients that contribute to the proper function of thyroid gland. L-tyrosine is a conditionally essential amino acid that is necessary for the production of thyroid hormones. Selenium is a trace element normally present in the human body, necessary for normal functioning of the thyroid gland. It acts as a powerful antioxidant, especially when combined with vitamin E. Iodine is an essential trace element which is vital to the function of the thyroid gland. It is an essential component of thyroid hormones, which are required for normal development and metabolism.

References: 1. PDR for Nutritional Supplements 2. www.efsa.europa.eu

+ RECOMMENDED FOR:

STRONG NATURE® THYROID FORMULA is a dietary supplement based on amino acid L-tyrosine, vitamin E and microelements – selenium and iodine.

- **Selenium and iodine contribute to the normal production of thyroid hormones and normal thyroid function.**
- **Selenium and vitamin E contribute to the protection of cells from oxidative stress.**
- **Iodine contributes to normal energy-yielding metabolism.**

Strong Nature®

EYE FORMULA / 30 + 30 capsules

+ COMPOSITION:

Fish oil standardized to min: 250 mg DHA, 50 mg EPA, 10 mg αTE* of Vitamin E (as dl-α-tocopheryl acetate), 7 mg of Beta-carotene, 5 mg of Riboflavin, 5 mg of Zinc (as zinc-oxide), 2 mg of Astaxanthin, 1 mg of Copper (as copper-gluconate), 50 µg of Selenium (as sodium-selenate).
αTE* - alpha tocopherol equivalents

+ CHARACTERISTICS AND EFFECTS:

Fish oil is a rich source of polyunsaturated Omega-3 fatty acids EPA and DHA. **Docosahexaenoic acid (DHA)** is found in the highest concentration in the retina, suggesting it has an important functional role. **Eicosapentaenoic acid (EPA)** is used in DHA biosynthesis. **DHA** contributes to the maintenance of eye health, helps to prevent retinopathy and age-related macular degeneration. **Beta caroten and astaxanthin** are the members of carotenoid family. **Beta carotene** is a provitamin of vitamin A. **Zinc** is highly concentrated in the eye and necessary for the normal metabolism of vitamin A in the body. It is essential for dark adaptation. **Vitamin A and zinc** contribute to the maintenance of normal vision. **Riboflavin or vitamin B2** plays a key role in the production of energy in the body. It is important for normal vision and may prevent cataract. Astaxanthin is far more effective than other carotenoids at "singlet oxygen quenching," which is a particular type of oxidation. Astaxanthin crosses the blood-brain barrier and the blood-retinal barrier, which has huge implications for the health of eyes. Astaxanthin supplementation could be effective in preventing or treating a whole host of eye diseases, including: age-related macular degeneration (ARMD), diabetic neuropathy, cystoid macular edema, central retinal arterial and venous occlusion, glaucoma, inflammatory eye diseases (i.e., retinitis, iritis, keratitis, scleritis, etc.). Vitamin E, selenium, zinc and copper help protect cells from oxidative stress. Riboflavin may potentiate the antioxidant effect of vitamin E.

References: 1. PDR for Nutritional Supplements 2. www.efsa.europa.eu 3. www.astareal.se

+ RECOMMENDED FOR:

STRONG NATURE® Eye Formula is a dietary supplement for healthy eyes based on fish oil, riboflavin, astaxanthin, beta carotene, vitamin E, selenium, zinc and copper. DHA is an important part of the structure of the retina and therefore plays a role in visual development and normal eye function. Beta carotene is a provitamin of vitamin A. Zinc is necessary for the transport of vitamin A in the body. Vitamin A, riboflavin and zinc contribute to the maintenance of normal vision. Vitamin E, selenium, zinc and copper contribute to protection of cells from oxidative stress.

Strong Nature® PROSTATE HELP / 30 capsules

+ COMPOSITION:

125 mg of Cranberry (*Vaccinium macrocarpon* Aiton) fruit powder, Flowens®, 50 mg of Japanese pagoda tree (*Sophora japonica* L) flower dry extract with min 98% of quercetin, 15:1, 40 mg of Vitamin C (as l-ascorbic acid), 12 mg αTE of Vitamin E (as dl-α-tocopheryl acetate), 5 mg of Zinc (as zinc-oxide), 50 µg of Selenium (as l-selenomethionine).

Flowens®

+ CHARACTERISTICS AND EFFECTS:

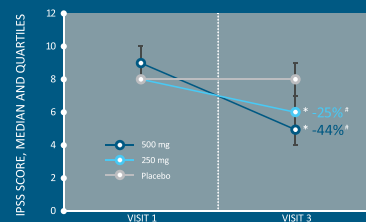

Flowens®* is a full spectrum cranberry powder purposely built and optimized for men's health. 250 mg daily supplementation with Flowens® has been clinically shown to: • **helps support normal prostate function** and • **improves lower urinary tract symptoms**. It is believed that quercetin is the most active of all flavonoids. Studies suggest that several of quercetin activities, including anti-inflammatory, antioxidant and immune-modulating actions, are responsible for its beneficial effects in chronic prostatitis. Selenium is an essential trace element in human nutrition. It plays an important role in maintaining the viability of sperm cells and it is needed for healthy prostate function. Zinc has a broad range of vital roles in human organism. Among other roles, zinc is involved in sperm formation and testosterone metabolism. Vitamin C, vitamin E, zinc and selenium are powerful antioxidants which protect cells from damage caused by free radicals.

+ *SCIENTIFIC EVIDENCE:

SIGNIFICANT IMPROVEMENTS IN URINARY SYMPTOMS

Flowens™ was used in a randomized, double blind, placebo controlled study in otherwise healthy men with LUTS. The results showed that Flowens™ is safe and effective with no side effects.

* Statistically significant vs. placebo (P<0.05) * Statistically significant vs. baseline (P<0.05)

International Prostate Symptom Score, a validated questionnaire, is widely considered the most relevant clinical marker used to evaluate the severity of LUTS. Daily consumption of 250 or 500 mg of Flowens™ delivers statistically significant improvements in IPSS vs. baseline and vs. placebo control.

+ RECOMMENDED FOR:

Strong Nature® Prostate Help is a dietary supplement based on Flowens®, quercetin, vitamin C, vitamin E, selenium and zinc. Flowens® is a full spectrum cranberry powder that has been clinically shown to improve Lower Urinary Tract Symptoms in men associated with Benign Prostate Hyperplasia. Selenium is beneficial for prostate health and contributes to normal spermatogenesis. Zinc contributes to the maintenance of normal testosterone levels in the blood. Vitamin E, vitamin C, selenium and zinc contribute to protection of cells from oxidative stress.

+ INSTRUCTIONS FOR USE:

Adults: 2 capsules a day.

Strong Nature® **UROFIT BRUSNICA** / 30 capsules

+ COMPOSITION:

250 mg of whole Cranberry (*Vaccinium macrocarpon*) fruit dry extract 50:1, with min 1.5% proanthocyanidins, Pacran®.
Pacran® is the brand name of the French company Naturex SA.

+ CHARACTERISTICS AND EFFECTS:

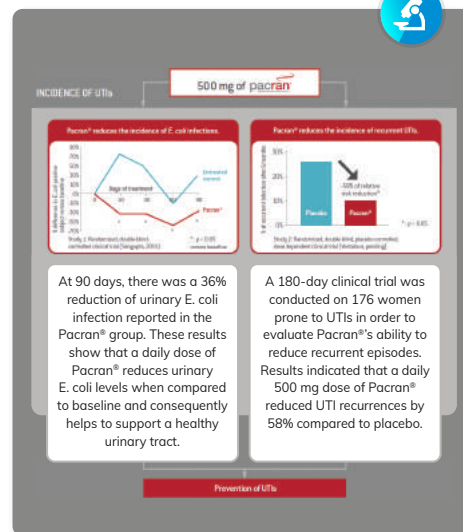

Cranberry is widely used to prevent urinary tract infections. Cranberries appear to work by inhibiting the adhesion of uropathogenic *E. Coli* to the uroepithelium and subsequent infection. **PACRAN®** is a patent-protected proprietary cranberry dry extract of the French company Naturex.

It is obtained from the whole fruit and provides the full spectrum of cranberry with a standardized level of bio-active proanthocyanidins, as well as other key cranberry components, such as phenolics, organic acids, fibers, fatty acids, proteins and sugars.

PACRAN® is the most extensively studied and scientifically proven cranberry product for urinary tract health. **500 mg PACRAN®** supplementation has been clinically proven to:

- Reduce recurrent urinary tract infections
- Reduce *E. Coli*

+ *SCIENTIFIC EVIDENCE:

+ RECOMMENDED FOR:

Strong Nature® Urofite Brusnica is a dietary supplement based on dry extract of whole cranberry fruit, with standardized level of bio-active proanthocyanidins. Strong Nature® Urofite Brusnica is recommended for maintenance of urinary tract health by:

- Reducing bacteria adhesion to urinary tract wall
- Reducing the incidence of *E. coli* infections and recurrent urinary tract infections

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule 2 times a day with meal.

Liver health segment

For healthy liver

Strong Nature® GLUTATHIONE+ / 30 capsules

+ COMPOSITION:

L-Glutathione 150 mg, N-acetyl-L-cysteine 150 mg, Curcuma (Curcuma longa) rhizome dry extract with min 95% curcuminoids 25 mg.

+ CHARACTERISTICS AND EFFECTS:

The liver has many important functions, including detoxifying potentially hazardous chemicals inside the body, storing glycogen and regulating blood sugar levels, producing and storing proteins and regulating protein metabolism, and producing bile and aiding in the digestion of fats. The liver is the body's main detoxifying organ, and the main substance responsible for the healthy liver function is a strong antioxidant glutathione. L-Glutathione is a naturally-occurring tripeptide that is produced in the human body. **OPITAC™ Kohjin Glutathione** is the manufactured form of glutathione whose effectiveness is confirmed through numerous clinical studies. As the human body ages, as it is exposed to toxins and pollutants from inside and out, and as it is subject to physical illness and immune system deficiency, the volume of Glutathione maintained in the body decreases dramatically. So, the additional intake of glutathione through dietary supplements is more than needed. N-acetyl-L-cysteine (NAC) is a precursor needed for glutathione biosynthesis. NAC is a form of the amino acid cysteine, which in addition to increasing glutathione also reduces acetaldehyde toxicity that causes many hangover symptoms. Antioxidant and anti-inflammatory effects of curcumin are responsible for its hepatoprotective activity. Curcumin is capable of repairing damaged liver tissues.

+ RECOMMENDED FOR:

Strong Nature® Glutathione+ is a dietary supplement intended for the maintenance of normal liver function. N-acetyl-L-cysteine enhances the production of glutathione in the liver. Glutathione is essential for the regeneration of liver cells and its detoxification function. Curcuma helps maintain the health of the liver.

+ INSTRUCTIONS FOR USE:

Adults: one-two capsules a day with meal

Strong Nature® BETATEN PROTEKT / 30 capsules

+ COMPOSITION:

50 mg of Japanese pagoda tree (*Sophorae japonica* L) flower dry extract with min. 98% of quercetin, 15:1, 50 mg of Tomato (*Solanum lycopersicum*) fruit dry extract with min 10% of lycopene, 15:1, thereof: 5 mg of Lycopene, 10 mg αTE* of Vitamin E (as dl-α-tocopheryl acetate), 7 mg of Beta - carotene, 5 mg of Zinc (as zinc-oxide), 1 mg of Copper (as copper-gluconate), 50 µg of Selenium (as sodium-selenate).
αTE* - alpha tocopherol equivalents

+ CHARACTERISTICS AND EFFECTS:

Strong Nature® BetaTen Protekt is a dietary supplement with a unique formulation. It is intended for:

- preparing the skin for sunbathing,
- maintaining the health of the skin, hair and nails,
- protect the body from the action of free radicals and the harmful effects of UV radiation, especially during sunbathing,
- Promotes the production of melanin, which increases skin pigmentation and is responsible for the beautiful tanned appearance of the skin.

Beta-carotene is a provitamin of vitamin A from the group of carotenoids. **Carotenoids** are a group of fat-soluble compounds widely distributed in the plant world, where they are the carriers of yellow and orange colors. **Vitamin A** is necessary for maintaining normal vision and skin function. **Lycopene** is another ingredient that comes from the group of carotenoids. It is responsible for the red color of fruits and vegetables and is one of the strongest antioxidants that exist in nature. **Quercetin** belongs to the group of bioflavonoids with pronounced antioxidant activity and a strong effect in protecting cells from damage caused by the harmful effects of UV rays. **Copper** contributes to melanin synthesis. **Melanin** is responsible for normal skin pigmentation, a uniform and beautiful tanned appearance, but it also plays a role in protecting the skin from the harmful effects of UV radiation. **Zinc** is a micronutrient necessary for normal and healthy skin, hair and nails. Vitamin E, selenium, zinc and copper contribute to the protection of cells from oxidative damage caused by UV rays and an increased concentration of free radicals in the body.

+ RECOMMENDED FOR:

- For safer sunbathing
- Faster achievement of a beautiful, even tan
- In order to protect the skin from the negative consequences of sunbathing
- Faster skin recovery after sunbathing
- Maintaining the health of the skin, hair and nails

+ INSTRUCTIONS FOR USE:

Adults: 1 capsule daily with a meal.
