GlobalPharmacia Group

Let us introduce ourselves.

GlobalPharmacia Group, a privately owned company and Entrepreneur managed, was founded to manufacture and produce premium nutritional supplements available worldwide under private labels. **We provide one-stop customer support every step of the way** – from conceptualisation to the finished product.

Uncompromising Quality Standards and Competitive Pricing

At GlobalPharmacia Group, quality is non-negotiable. Our commitment to excellence is reflected in every product we create. We adhere to **the highest industry standards**, including **FDA, GMP, HACCP** and **ISO**, ensuring that **every product we produce meets the strictest quality criteria**. Thanks to the top-quality experts we work with, the modern technologies we use and the low prices of the energy resources available to us, we can be cost-competitive despite our exceptional quality.

“Your success is our passion. **Let us elevate your business together.** We'll build you a **premium product** that meets your needs, and you add the colours that match your story.

What Makes Us Your Ideal Partner?

Comprehensive Product Range & State-Of-The-Art Technology

Our diverse portfolio includes a wide range of food supplements, liquids and solids. The state-of-the-art production facilities and in-house R&D resources allow us to bring your ideas to life – all in one place.

Flexible Manufacturing Approach & Low MOQ

Our customisable machine selection allows us to accommodate large, medium and short production runs. Customers have the freedom to choose from a wide range of proven recipes and compositions available for single or bulk orders. Our low Minimum Order Quantity (MOQ) is a distinct advantage, especially for small businesses or those wishing to gauge market response.

Fast Turnaround

We understand the importance of time in the industry, which is why we are committed to minimising lead times. Your orders can typically be delivered in as little as one to three weeks. We are committed to getting your product ready for the market as quickly as possible.

Uncompromising Quality

At GlobalPharmacia Group, quality is not just about making a good product; we go beyond industry standards. Our manufacturing processes for dietary supplements strictly adhere to GMP, FDA, HACCP and ISO standards, and we ensure compliance with all regulatory and quality requirements throughout production.

Customised Formula

One of the GlobalPharmacia Group's specialities is flexibility. You can choose from ready-to-use formulations or work with us to develop a customised dietary supplement; one that fits perfectly with your vision. With an optimal approach to manufacturing, together we will create a product that meets your specific requirements.

Customised Packaging

GlobalPharmacia Group offers a diverse range of premium packaging solutions, available in a variety of shapes and colours. We are committed to helping you choose packaging that complements your product design and provides a visually appealing and unique presentation. We are happy to help you choose packaging that fits seamlessly with your product design and provides an attractive presence in the marketplace.

Fast Ordering Process

Flexibility is at the heart of our service. Whether you prefer ready-to-use formulations, modifications or completely new formulations, you can be sure that we will exceed your expectations. Our streamlined process ensures your needs are met immediately.

Product Development Expertise

GlobalPharmacia Group is your partner in success from concept to finished product. We create individual prescriptions tailored to your target audience and deliver a finished product that meets your market requirements.

Complete Production

In our state-of-the-art facilities, we expertly manufacture and package dietary supplements in a variety of formats, including capsules, sachets, syrups, liquids, drops, gels, tablets and gummies.

All Necessary Documentation

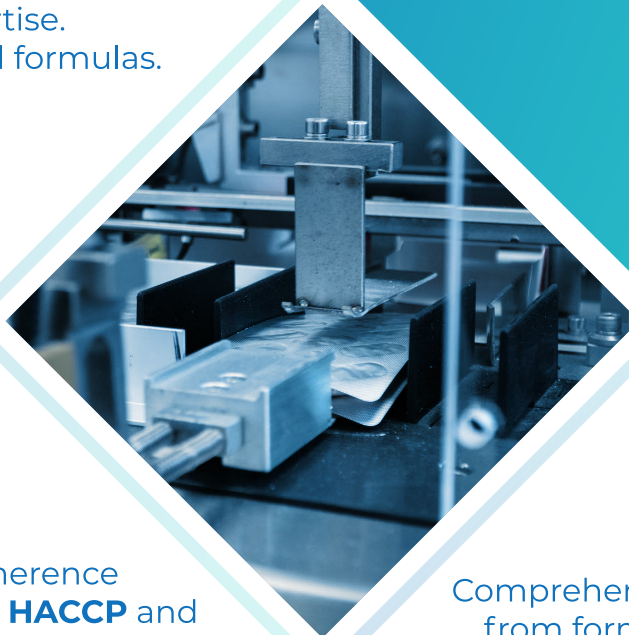

GlobalPharmacia Group is your guarantee of compliance with all necessary standards. We meet all the legal and quality requirements related to the production and placing on the market of food supplements. Every product ordered is accompanied by the necessary documentation to ensure transparency and trust.

Join the ranks of satisfied customers who trust GlobalPharmacia Group for their CBD needs.

HEKA

FOOD SUPPLEMENTS

OUR MISSION:

As owners of HEKA, we are sports enthusiasts who support top sports clubs. Professional athletes are exposed daily to the extreme stresses that the human body can endure, so it is of paramount importance that they take the highest quality nutritional supplements. That's why we make it our mission to give everyone who cares about their health access to the highest quality nutritional supplements at an affordable price.

The HEKA Story:

The idea for the HEKA brand was developed during a visit to Egypt a few years ago. Listening to local music in one of the traditional pharmacies, where the guide told stories about the healers and gods that people turned to in search of health and long life, the name HEKA stuck in our minds.

HEKA actually translates directly into 'MAGIC'. HEKA was considered to be the goddess of magic and medicine, which in those days meant something supernatural, magical. In times of distress and health problems, people turned to the goddess Heka for healing and also for preventive care. The products of the HEKA 'family' are not miracles, but they can be the 'magic' potions of our time, helping you to balance a healthy mind in a healthy body with a wide range of products. The HEKA products are primarily aimed at prevention, which is very important, if not essential, in today's world full of pressures and, above all, stress.

Gummies

A Rising Star In The World of Food Supplements

While people often associate pills and capsules with ill health, gummies tell a very different story – they remind us of childhood, sweets, fun, of positive feelings. This is one of the reasons why gummies have changed the way people incorporate essential nutrients into their daily routine.

Beauty Gummies

A blend of ingredients that contribute to beauty.
For glowing skin.
For beautiful hair and strong nails.

Weight Loss Gummies
