

# FENUTEIN™

FENUTEIN™ is a product developed by Sunpure Research Incubation Centre (SRIC) fulfils nutritional deficiencies with superior meal supplements. It is available in the powder form which is having multiple uses & applications. FENUTEIN™ is a product of Fiber, Protein, different vitamins & minerals without any bitter taste and without of any fat content. Consumer demands for non-artificial products, especially in the food sector, are rising. Devoid of synthetic flavouring and ingredients FENUTEIN™ could then be put in the clean and green label category. FENUTEIN™ process of development, clinical studies, pending patent (Patent application no.: 201911047224 A – Year 2019 and US DMF with US FDA) are readily available for review.
