A UNIQUE BIOACTIVE SPIRULINA EXTRACT:

- **Studied:** This is the only concentrated spirulina extract rich in phycocyanins, showcasing **antioxidant properties proven** in a placebo-controlled human trial.
- **Bioavailability:** The liquid formulation facilitates enhanced availability of the molecules and swift absorption by the body.
- **100% natural:** Spirulysat® is a chemical-free pure extract, devoid of synthetic products.
- **Easy to use:** Spirulysat® is **tasteless and odorless** thanks to a fully internalized value chain and a patented extraction process.

Flash Program

Recommended for:

- Persistent fatigue
- Designated timeframes for preparation or recovery.
- Challenging professional commitments

Actives ingredients:

- Phycocyanins: 50 mg

Recommended Daily Dosage: 1 ampoule

Shelf life: 18 months

Spirulysat®

Recommended for:

- Fatigue
- Maintenance
- Stress

Actives ingredients:

- Phycocyanins: 20 mg

Recommended Daily Dosage: 1 ampoule

Shelf life: 18 months

MAGNESIUM & STRESS

AN ESSENTIAL MINERAL AND A UNIQUE OFFER:

- ANSES estimates that 70% of adults and 90% of children are deficient in magnesium. This mineral, involved in over **300 bodily interactions**, is crucial in various dietary supplements.
- **100% bioavailable:** Our magnesium is preserved in its original liquid form to provide access to Mg^{2+} molecules in their elementary, ionized form, ensuring optimal bioavailability and improved assimilation.
- **Natural:** Marine magnesium sourced from the brine of the salt marshes in the Guérande peninsula.
- **Low-sodium:** Derived through a **exclusive bioprocess**, we provide the unique marine magnesium **suitable for salt-free diets**.

Flash Program

Claims:

- Support during periods of high organizational demands (exams, competitions)
- Nervous System and Psychological Processes
- Metabolic energy

Active ingredient:

- Marine magnesium bioavailable: 150 mg (40% of RDA)
