

Typical client cases and challenges

- 
Foodtech upscaling
 Food & (bio)tech innovators need an agile approach, a vetted network, a ready-to-go playbook and quick support.
- 
Corporate innovations
 Strategic concept feasibility & make-or-buy assessment, fast track testing, incognito market research, outsourcing strategy.
- 
Operation improvement
 Manufacturing benchmark, idle capacity optimization, waste- & side stream valorization, supply chain & manufacturing design.
