

VITALUS

WHO WE ARE

Vitalus Nutrition is a Canadian, family-founded company rooted in Abbotsford. Our origins date back to 1988 with Vanderpol's, a local family business that has long been part of the community. Building on this foundation, Vitalus Nutrition Inc. was officially established in 2004 to become a global leader in specialty dairy ingredients. Today, we transform Canadian milk into high-quality specialty ingredients such as proteins, cream, butter, and prebiotics used in foods and nutrition products world-wide—while staying true to our values of care, integrity, and expertise.

OUR GROWTH STORY

THE ABBOTSFORD EXPANSION PROJECT

WE ARE BUILDING A NEW 143,500-SQUARE-FOOT FACILITY THAT WILL:

- ◆ Increase B.C.'s milk processing capacity by 50%.
- ◆ Support Fraser Valley farmers by processing more local milk.
- ◆ Produce butter, protein powders, and nutrition-focused ingredients.
- ◆ Help reduce surplus milk in Western Canada.
- ◆ Position Canada to meet growing global demand for dairy protein

ECONOMIC & COMMUNITY IMPACT

100 new skilled, family-supporting jobs in Abbotsford

Thousands of indirect jobs in farming, transportation, and agri-tech

Contributes more than \$300M annually to B.C.'s economy

Contributes more than \$400M annually to Canada's GDP

Supported by both federal and provincial governments as a strategic investment in food supply and sustainability

OUR COMMUNITY COMMITMENT

Vitalus has a proud history of supporting the Fraser Valley community, from disaster relief donations during the 2021 floods to ongoing volunteer programs with local organizations. We believe our success is shared with our neighbors, employees, and local farmers.

THANK YOU!

We appreciate the support of our community as we bring this important project to life—strengthening B.C.'s dairy industry and building a sustainable future for Canadian food.
