

GREEN MANUFACTURING
FOR A BRIGHTER *Life*

COMPANY Profile

InnovaSyn Biotech Inc. was founded in March 2013, manufacturing enterprise driven by synthetic biology technology. Our products cover nutritional and cosmeceutical raw materials, NAD series coenzymes, and pharmaceutical intermediates. InnovaSyn has been recognized as a national certified high-tech enterprise since 2016. With over a decade of experience in the synthetic biology field, we have developed extensive industry expertise and technological capabilities.

InnovaSyn has three production bases, located in Changzhou (Jiangsu Province), Songyuan (Jilin Province), and Zoucheng (Shandong Province). Production bases have been constructed in accordance with cGMP standard system and has successfully passed on-site audits conducted by domestic and foreign enterprises.

InnovaSyn is dedicated to the mission of "focusing on technology and innovation, providing excellent solutions to global customers, and enhancing the quality of human life." Adhering to the values of "innovation, responsibility, integrity, and excellence," we are positioned at the forefront of the field of bio-synthesis, committed to biological innovation, improving life, and serving society. We are constantly moving towards the vision of "becoming a globally outstanding innovative enterprise in the field of bio-synthesis, and promoting the continuous progress of the health industry."

NUTRITIONAL RAW MATERIALS

Product Name	Efficacy
β -Nicotinamide Mononucleotide	Anti-Aging
L-Glutathione	Liver Protection
β -Nicotinamide Adenine Dinucleotide	Anti-Aging
Nicotinamide Mononucleotide,Reduced Form	Anti-Aging
NADH,Disodium Salt	Alcohol Detoxification
Nicotinamide Riboside Chloride	Anti-Aging
Nicotinamide Riboside Malate	Anti-Aging
Pyrroloquinoline Quinone Disodium Salt	Memory Improvement
L-(+)-Ergothioneine	Antioxidation

COSMECEUTICAL RAW MATERIALS

Product Name	Efficacy
β -Nicotinamide Mononucleotide	Anti-Photoaging
L-Glutathione	Skin Brightening
β -Nicotinamide Adenine Dinucleotide	Moisturizing
Nicotinamide Riboside Chloride	Anti-Aging
L-(+)-Ergothioneine	Antioxidation

PHARMACEUTICAL INTERMEDIATES

Product Name	CAS NO.
L-2-Aminobutyric Acid	1492-24-6
Uridine	58-96-8

PRODUCTION *Bases*

Jiangsu Base

Since 2019

Located in the Daitou Industrial Park, Liyang City, Jiangsu Province.

Specializing in the production of amino acid series products, with product lines that include L-2-aminobutyric acid, γ -aminobutyric acid, and others.

Jilin Base

Since 2020

Located in Songyuan City, Jilin Province.

Primarily engaged in the development and production of raw materials for nutritional raw materials, with a product range that includes NMN, GSH, and others.

Shandong Base

Since 2024

Located in Zoucheng City, Jining, Shandong Province.

Specializing in the production and sales of raw materials for nutritional and cosmeceutical raw materials.

COMPANY *History*

2023 | November 2023
R&D Center
Relocation

R&D center has been established

2021 | May 2021
Jilin Base
Successful Commissioning

The 1st phase of Jilin Songyuan production base project was successfully put into operation

2020 | August 2020
Jilin Base
Groundbreaking

Successful groundbreaking ceremony of Jilin Songyuan base

2019 | December 2019
Jiangsu Base
Successful Commissioning

Production line test run successfully

2017 | July 2017
Zhejiang Yiwu pilot
workshop Establishment

Annual production capacity is 100 tons

2015 | May 2015
Jiangnan University
Joint R&D Lab Launched

The joint research and development laboratory of Jiangnan University's national engineering laboratory was listed successfully

2013 | March 2013
Company Establishment

InnovaSyn Biotech Inc. was officially established
